

Minimally Invasive Treatment of Inguinal Hernia in TEP and eTEP Technique

23 March 2023, 09:00 h – 12:00 h (local time Istanbul)

This LiSTO.academy Hybride Workshop offers surgery broadcast and a theory session on:

- Laparoscopic treatment of inguinal hernia in TEP and eTEP technique

Methods, tips and tricks for avoiding possible surgical mistakes are the focus of the webinar.

Real-time verbal interaction between the trainer and the participants provides the opportunity to share experiences and ask questions at any time.

At the end of the webinar, the participants will also have the opportunity to discuss the presented procedure with the trainers.

This event is exclusively reserved for participants from Turkey.

We look forward to welcoming you online and on-site.

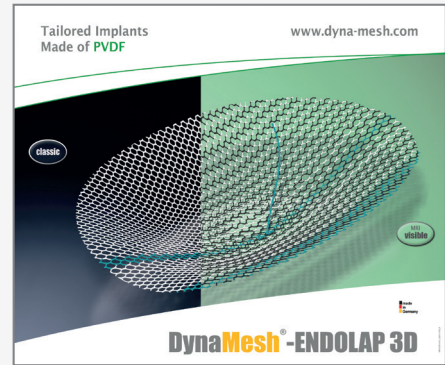

Metin Ertem, M.D., FACS. Professor

Director of General Surgery
